Friday 1<sup>st</sup> May

Dear Parent and Carers,

## Somerset Kingfisher Award Scheme Trip

On Wednesday 20<sup>th</sup> May, Griffins class will be visiting a farm as part of their Science inquiry into 'Living Things and their Habitats'. We will leave school at 8.30 and will be back at school at about 2pm.

We will be hosted by volunteers from the The Kingfisher Award Scheme which is part of the educational outreach work carried out by the Farming and Wildlife Advisory Group South West. The scheme promotes awareness of the countryside, farming and conservation to school children. This trip is fully funded including transport by the charity, you just need to give your consent for your child to attend on MCAS.

Activities will be in held in a large meadow area and an adjoining arable field at Home Farm, Curry Rivel. The children will explore the field margins, habitats and the soil, learn about the crops grown and how they are processed to become food.

### **Please ensure that you send your children with;**

- Suitable outdoor clothing, depending on the weather of the day (sun hat, sun cream, waterproof coat, waterproof trousers, wellington boots)
- If your child suffers from hay fever please ensure they take their medication before the field day.
- If you child takes travel sickness medication please ensure this is given prior to coming in to school.
- A packed lunch and drink (re-fillable water bottle) in a small back pack.

Yours sincerely

Donna Pennington
